Note: Performance evaluation is a judgmental process within the framework of the position requirements as specified in the official position description. As a supervisor, you are required to judgé the quality of performance of your subordinates.

Instructions: Please give your candid appraisal of the employee for each of the factors in Section I by placing an X in the box which most closely describes him. Section II of this evaluation form requires narrative replies to the questions asked. Section III is optional and may be used by you to make any additional clarifying comments you feel necessary.

Definitions of Rating Terms in Section I:

Superior - performance of factor rated is far and above what would normally be expected from someone in the position. "Superior" should <u>not</u> be considered synonymous with "perfect." Probably 25% of all Agents, evaluated for this particular grade level, would be rated "Superior" for any given factor.

Above Average - level of performance of the factor rated is beyond what would normally be expected from someone in the position but not so high as to be of a superior nature. Employees rated "Above Average" would probably constitute the second (from the top) 25% of all Agents rated for this particular grade level.

Average - satisfactory performance of factor rated as would normally be expected from someone in the position.

Below Average - performance of the factor rated is below what would normally be expected from someone in the position.
